poorly. It utilizes plastic shoes “riding” on the cam chains that can and will actually wear out in due Page 4/28.

88 Twin Cam Engine Problems - edugeneral.org

There really is “no fix” for this Twin-Cam engine defect. Even the new hydraulic system still has chain tension shoes that

Acces PDF 88 Twin Cam Engine Problems

will eventually wear out and if you don't catch it in time, the shoes can disintegrate just like the old spring-tension system and cause the cam chain to slap against metal causing total engine failure, usually by clogging the oil pump with metal chips.
