Foundations of Investing - Making Sense of Investing

The Council is participating in the conversation about unlocking new capital for social good. For decades, some foundations have made impact investments that intend to generate financial and social returns to complement grants, partnerships, advocacy, and other tools in the philanthropic toolbox. Increasingly, individuals, foundations, and other institutions are interested in

Impact Investing | Council on Foundations

The Council on Foundations defines a foundation as an entity that supports charitable activities by making grants to unrelated organizations or institutions or to individuals for scientific, educational, cultural, religious, or other charitable purposes.

Foundation Basics | Council on Foundations

For foundations looking to mobilize both the grant-side and the endowment-side of impact investing for important science-based ventures, one benefit of partnership with a nonprofit intermediary is that the same foundation can support companies in their earliest stages of formation with grants to the intermediary, while leaving room for the foundation endowment to follow on into the most promising investments later.

Foundations - MIT Innovation Initiative

I would have actually preferred using Foundations for Scientific Investing as textbook for a couple of quant subjects given its clarity and the depth of the topics discussed. Given how many of the chapters are stand-alone, I was able to skim through the topics I am most confident with, to focus on the areas I wanted to gain more insight on.
