Roger Fry's 'Difficult and Uncertain Science' by Adrienne ...

Roger Eliot Fry (16 December 1866 - 9 September 1934) was an English painter and critic, and a member of the Bloomsbury Group. Establishing his reputation as a scholar of the Old Masters, he became an advocate of more recent developments in French painting, to which he gave the name Post-Impressionism. He was the first figure to raise public awareness of modern art in Britain, and emphasised ...

He even compared them favourably with those of the thirteenth century, although he regarded the latter period as more artistic. But he was rudely shaken out of his complacency in social matters by the events of 1914-18. To Fry, as to most other intellectuals of his generation, the first world war came as a shattering bolt from the blue.
