an abstract of the overall project management plan. There are no clearly defined rules of how to gather requirements for a website design, as they may differ from agency to agency.

Website Design Requirements Document Example

A website specification is a document that articulates the project's goals, objectives and tactics. It should outline constraints, such as budget, deadlines, or technical restraints. It can also include project details such as the team involved, for example, stakeholders or points of contact.

A guide to writing website specification documents ...

5. Website structure (don't worry, it's provisional) This won't be set in stone. It tends to change around the design stage. But having a starting point that clearly conveys the 'information architecture' of the website prevents anything that needs to be on there, getting left behind.
